PATENT COOPERATION TREATY

PCT

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference							
PAT 01084PCT	FOR FURTHER ACTION	See Form PCT/IPEA/416					
International application No.	International filing date (day/mont	h/year) Priority date (day/month/year)					
PCT/EP2004/002475	11.03.2004	12.04.2003					
International Patent Classification (IPC) or nati	onal classification and IPC						
Applicant							
BASF COATINGS AG							
 This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36. 							
2. This REPORT consists of a total of	8 she	ets, including this cover sheet.					
3. This report is also accompanied by A	NNEXES, comprising:						
a. (sent to the applicant and	to the International Bureau) a total	of sheets, as follows:					
, , , , , , , , , , , , , , , , , , , ,	,	have been amended and are the basis for this report and/or					
		ority (see Rule 70.16 and Section 607 of the Administrative					
sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental							
Box.							
b. (sent to the International	Bureau only) a total of (indicate typ	e and number of electronic carrier(s))					
		, containing a sequence listing and/or tables					
related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).							
4. This report contains indications relati	ng to the following items:						
Box No. I Basis of the	report						
Box No. II Priority							
	shment of opinion with regard to no	ovelty, inventive step and industrial applicability					
	ty of invention	, , , , , , , , , , , , , , , , , , ,					
	•	egard to novelty, inventive step or industrial applicability;					
citations an	d explanations supporting such stat						
Box No. VI Certain doo	ruments cited						
Box No. VII Certain def	ects in the international application						
Box No. VIII Certain observations on the international application							
Date of submission of the demand	Date of cor	apletion of this report					
		Fr. common artifacts					
Name and mailing address of the IPEA/EP	Authorized	officer					
Facsimile No.	Talambana	NI.

Citation	ns and explanations (Rule	70.7)		
1.	Referenc	e is m	nade to the following documents:	
	D1: EP-	A-0 95	2 170 (BAYER AG) 27 October 1999	
	(19	99-10-	·27)	
	D2: EP-	A-0 39	33 007 (MONSANTO CO) 17 October 1990	
	(19	90-10-	-17)	
	D3: DE	198 53	8 813 A (HENKEL KGAA) 17 June 1999	
	(19	99-06-	-17)	
	D4: EP-	A-0 63	32 329 (CIBA GEIGY AG) 4 January 1995	
	(19	95-01-	-04)	
	D5: EP-	A-0 28	37 736 (GORE & ASS) 26 October 1988	
	(19	88-10-	-26)	
2.	Examples	3-5 c	of document D1 disclose a mixture	
	containi	ng a p	photoinitiator (Irgacure® 184 or 185)	
			e acrylate with an NCO content of	
			ixture is used as a cross-linking	
			o-component system. The binding	
	_		nt contains actinically activatable	
	_	_	s C=O- or C-O- groups.	

Document D1 thus prejudices the novelty of the

subject matter of claims 1-24 of the present

International application No.
PCT/EP2004/002475

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement application.

3. Example 9 of document D2 discloses a dual-curable composition that contains a component A containing methylene bis (4-cyclohexylisocyanate) (Desmodur W®) and the photoinitiator and a component B containing a polytetramethylene ether glycol (Terathane®) and compounds with acrylate groups.

Document D2 thus prejudices the novelty of the subject matter of claims 1-24 of the present application.

4. Example 1 of <u>document D3</u> discloses a mixture that contains an NCO-terminated prepolymer with acrylate groups and a photoinitiator (Irgacure® 651).

Document D3 thus prejudices the novelty of the subject matter of claims 1-12 of the present application.

5. Examples A5, A6 and A9 of <u>document D4</u> disclose a mixture that contains Irgacure® 184 and a diisocyanate.

Document D4 thus prejudices the novelty of the subject matter of claims 1-12 of the present application.

6. Example 1 of <u>document D5</u> discloses a moisture- and radically cured mixture that contains an NCO-

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY PCT/EP2004/002475 Box No. VI Certain documents cited Certain published documents (Rule 70.10) Priority date (valid claim) (day/month/year) Publication date Filing date Application No. Patent No. (day/month/year) (day/month/year) EP1347003 24.09.2003 18.03.2002 Non-written disclosures (Rule 70.9) Date of written disclosure referring to non-written disclosure Date of non-written disclosure Kind of non-written disclosure (day/month/year) (day/month/year)

Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

 The subject matter of <u>claim 1</u> is unclear (PCT Article 6), since the phrase "the majority" is not clear.

The applicant could overcome this objection by replacing this phrase with a percentage (50, 60, 70) taken from page 35, lines 26-30 of the description.

Claims 14 and 19 are unclear for the same reason (PCT Article 6).

2a. The subject matter of <u>claim 1</u> is unclear (PCT Article 6), since isocyanate groups are also isocyanate-reactive functional groups (e.g. isocyanurate formation) and therefore the mixture is not free from isocyanate-reactive functional groups.

The applicant could incorporate claim 11 into claim 1 in order to overcome this objection.

2b. According to page 10, lines 26-30 of the description, component (II) and the claimed mixture is an aqueous, organic dispersion. Since water contains isocyanate-reactive functional groups, the subject matter of <u>claim 1</u> is unclear (PCT Article 6).

International application No.
PCT/EP2004/002475

Box No. VIII Certain observations on the international application

Claims 14 and 19 are unclear for the same reasons (PCT Article 6).

3. The <u>subject matter of claim 14</u> is unclear (PCT Article 6), since the term "prevailing amount" is unclear.

The applicant could overcome this objection by replacing the term with the information provided on page 13, line 25 (more than 50 wt.%).

<u>Claim 19</u> is unclear for the same reason (PCT Article 6).

4. The subject matter of claims 1, 13, 14, 19 and 21 is unclear (PCT Article 6), since the examples are not covered by the claims. The cross-linking agent component II contains Irgacure® 184 (1-hydroxycyclohexyl-phenyl-ketone). This component is therefore not free from isocyanatereactive functional groups.
